Keypasco and TechMag Partner Up to Provide Brazil with the Keypasco Secure Authentication Solution

Gothenburg, May 20th, 2013 – Keypasco announces a partnership with TechMag to offer Brazil the Keypasco secure authentication solution. Keypasco is happy to have TechMag as a partner and representative. This partnership will fully integrate the Keypasco software and knowledge with TechMag's market expertise.

The result for customers will be an experience of a complete step-by-step integration process with personal assistance. With TechMag's market expertise, Keypasco's customers can relax knowing the contact with this secure authentication solution and software will be provided in a convenient manner, adjusting language and culture knowledge to the region.

The Keypasco multi-factor strong software allows a customer's users to use personal devices securely and conveniently wherever they go for a low annual cost. The software is easily installed and provides secure identity verification through encoded transaction data for the customer's service pages. Once verified, users can easily and securely access and use any provided service.

"We know the Keypasco team from many years back and their huge experience within the authentication industry has contributed to developing this secure application solution. With Keypasco's solution, we can introduce to the Brazilian market a new generation of secure software authentication. Internet is growing in Brazil; nowadays we have almost 94 million users (50 million active users), and more than 500 million websites. Our focus is to introduce the new authentication technology from Keypasco to the ICPs, making web access more safe and secure all over Brazil. We believe that growing demand from the market, our networking and Keypasco's solution will provide good results for both companies," commented Daniela B. Gianconi, Director at TechMag.

"The team at TechMag has many years of experience within the authentication industry. We are very happy that they have decided to cooperate with Keypasco and take the challenge to roll out a new generation authentication solution that they believe meets the demands set by the Internet market, which is experiencing explosive development." added Maw-Tsong Lin, Chief Executive Officer at Keypasco. *"With their knowledge of the authentication business and the well-established network, we strongly believe this partnership will quickly show good results."*

About TechMag
TechMag is the new distributor of the Keypasco Solution in Brazil. TechMag specializes in selling security solutions, with an integrated network of more than 220 dealers and 1,200 software houses throughout Brazil. They promote and distribute the Keypasco ID Solution and aim to provide professional cloud services to the market.

About Keypasco
We are at the heart of our rapidly changing digital culture. As with all paradigm shifts, there will be new challenges. Some of the largest challenges with cloud services are security and integrity, crucial factors for success and sustainability. With more than 20 years of individual experience in IT security, Keypasco's founders are the minds behind some of the revolutionary two factor authentication technology solutions used by leading Internet banks today.

Keypasco develops secure software, which is designed and customized to be used on trusted devices. Keypasco manage the software though its entire lifecycle, as well as the confidential data it contains. We deliver on the society's expanding needs for personal authentication services, identity protection, authenticated online services, cloud computing access, eCommerce, eGovernment and eBanking services. Keypasco's vision is to be a leading supplier of services for securing cloud services.
